The objective of EIOPA's Question and Answer process on regulation (Q&A process) is to ensure consistent and effective application of European regulation and to contribute to supervisory convergence in the EEA within EIOPA's scope of action.

EIOPA Q&A on Regulation

R f values are calculated by looking at the distance each component travels on the chromatography paper compared to the distance traveled by the solvent front. This ratio will be different for each component due to its unique chemical properties. When measuring the distance the component traveled, you should measure from the origin (where the middle of the spot originally was) and then to the ...
