This article was originally published at ABC Environment yesterday. I'm doing my best to respond to comments over there but it's not easy - perhaps SkS readers can help me out :) Of all the people that doubt the science of climate change, geologists seem to be the most vocal. But they, of all people, should be the most concerned.

Geologists and climate change denial - Skeptical Science

13/ Human tapeworms can grow up to 22.9m. 14/ The Earth is 4.56 billion years old...the same age as the Moon and the Sun. 15/ The dinosaurs became extinct before the Rockies or the Alps were formed.
