A majority of students in grades 3 to 6 are beyond decoding instruction. Strategic reading allows students to monitor their own thinking and make connections between texts and their own experiences. Based on the Guided Comprehension Model developed by Maureen McLaughlin and Mary Beth Allen, this lesson introduces students to the comprehension strategy of self-questioning.

Teaching with research based methods increases student engagement and understanding of material. For each teaching method find information about what makes the method effective and a collection of example lessons. Note: the list of teaching strategies below have been chosen for their application in K-12 classrooms from a larger list of research-based pedagogies on the SERC site.

Reciprocal teaching refers to an instructional activity in which students become the teacher in small group reading sessions. Teachers model, then help students learn to guide group discussions using four strategies: summarizing, question generating, clarifying, and predicting. Once students have learned the strategies, they take turns assuming the role of teacher in leading a

Constructivist teaching is based on constructivist learning theory. Constructivist teaching is based on the belief that learning occurs as learners are actively involved in a process of meaning and knowledge construction as opposed to passively receiving information. Learners are the makers of meaning and knowledge.
