Some of my favorite quotes "We ascribe beauty to that which is simple; which has no superfluous parts; which exactly answers its end; which stands related to all things; which is the mean of many extremes."

Some of my favorite quotes - Conal

Text mining is an emerging topic that advances the review of academic literature. This paper presents a preliminary study on how to review solar irradiance and photovoltaic (PV) power forecasting (both topics combined as "solar forecasting" for short) using text mining, which serves as the first part of a forthcoming series of text mining applications in solar forecasting.

History and trends in solar irradiance and PV power ...

This is a list of Korean inventions and discoveries. The Koreans have made contributions across a number of scientific and technological domains. In particular, the country has played a role in the modern Digital Revolution through its large electronics industry with a number of modern revolutionary and widespread technologies in fields such as electronics and robotics introduced by Korean ...

List of Korean inventions and discoveries - Wikipedia

It's true in higher education, it's true in law firms, it's true in hospitals (it's even true in monarchies!): women can get far, but they can't get all the way to the top.. In Europe, fewer than 10% of universities are run by women.

There are only 3 reasons women don't make it to the top ...
