Psycholinguistics or psychology of language is the study of the interrelation between linguistic factors and psychological aspects.. The field is concerned with psychological and neurobiological factors that enable humans to acquire, use, comprehend and produce language. The discipline is mainly concerned with the mechanisms in which languages are processed and represented in the brain.

Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and thus defines both its essence and nature of its characteristics. Information relates to both data and knowledge, as data is meaningful information representing values attributed to parameters, and knowledge signifies understanding of a concept.

### **Information - Wikipedia**

102 In verse 5 Jacob referred to Joseph's sons in reverse order: Ephraim and Manasseh. This foreshadows the reversal of tradition in giving the birthright to Ephraim, the younger, which will follow later.
