Take a journey inside a leaf of a redwood tree! Enter the stoma and view the inside of a plant cell, translucent enough to capture light from the sun. Fly by familiar structures like the nucleus and mitochondria, and settle into the chloroplast to watch photosynthesis at work. Reflect on the change in scale as you travel down to the molecular level!

I've created this special page on my blog to house all of the posters I have created for my classroom over the past few years. I have made them free for you to download and use in your own classroom as a way to say thank you to the thousands of people I've stolen teaching ideas from on the internet.

Math = Love: Free Classroom Posters

This is a followup to my post from yesterday where I provided time-dependent model results of the day-night cycle in lunar temperatures.. One of the fascinating things about the model result (which I would not have expected) is that all other things being equal, the faster a solar-illuminated planet rotates, the warmer its average temperature will be.

The Faster a Planet Rotates, the Warmer its Average ...
