world watch magazine on livestock & climate. This page examines the basic climate-related reasons why consumption of animal-sourced food products (even from grass-fed animals) must be drastically reduced as part of any viable food security strategy.

Animal Agriculture & Climate Change - A Well-Fed World

Nolan, and all other Lynas supporters- you are morons and shills and should be shot on contact. If you want to kill yourselves slowly, quickly, or however you wish, go for it, but you have NO RIGHT to do it to unknowing masses with your poisonous, genetically mutated monocultures that have NEVER been proven safe anywhere and have only every been tested by the chemical companies who make money ...

Lecture to Oxford Farming Conference, 3 January 2013 ...

Hi Deep Climate, I don't think the Cowtan and Way uncertainty envelope covers all the uncertainties that the HadCRUT4 envelope covers. They have a reduced coverage uncertainty due to the kriging, but as far as I know (happy to be corrected, I know their data set is in a state of continual improvement), they don't propagate all the uncertainties in the HadCRUT4 gridded data through their ...

It has long been claimed that a better understanding of human or social dimensions of environmental issues will improve conservation. The social sciences are one important means through which researchers and practitioners can attain that better understanding.

Conservation social science: Understanding and integrating ...

This is a list of scientists who have made statements that conflict with the scientific consensus on global warming as summarized by the Intergovernmental Panel on Climate Change and endorsed by other scientific bodies. A minority are climatologists. Nearly all publishing climate scientists (97-98%) support the consensus on anthropogenic climate change.

List of scientists who disagree with the scientific ...

FAOSTAT provides free access to food and agriculture data for over 245 countries and territories and covers all FAO regional groupings from 1961 to the most recent year available.

FAOSTAT - Food and Agriculture Organization

The politics of small things can be powerful, but it was yet another thing that Theresa May got wrong Premium

Environment - The Telegraph

This paper introduces case study analysis against an illustrative model, the 'house model', which contains a number of key elements for sustaining participatory forest management (PFM).

Starting at 5 pm, Sustainable Tucson will host a tour of the rainwater harvesting, greywater harvesting, and water conservation features at WMG's Living Lab.

Sustainable Tucson

I think changing the number of base years from 20 to 30 is good as it has reduced the alarmism bias. For instance, instead of 0.6+ C temperature anomaly in January, February, March and September this year under the 20-years base system, the figures are now 0.5+ C for Jan-March and 0.4+ C in September under the 30-years base system.
