Exam Test Banks and Solution Manuals

Sustainable development is the organizing principle for meeting human development goals while simultaneously sustaining the ability of natural systems to provide the natural resources and ecosystem services upon which the economy and society depend. The desired result is a state of society where living conditions and resource use continue to meet human needs without undermining the integrity ...

Sustainable development - Wikipedia

The car-free movement is a broad, informal, emergent network of individuals and organizations including social activists, urban planners, transportation engineers and others, brought together by a shared belief that large and/or high-speed motorized vehicles (cars, trucks, tractor units, motorcycles, ...) are too dominant in most modern cities. The goal of the movement is to create places ...

Car-free movement - Wikipedia

Livability refers to the subset of sustainability issues that directly affect community residents. Community livability directly benefits people who live in, work in or visit an area, increases property values and business activity, and it can improve public health and safety.
