By doing some math, we can calculate that for our made-up example, the chance of the yellow party winning is 12.9%. So the chance of yellow winning is a tad better than the 10% chance scenario shown in Figure 16.1. If you favor the blue party, you may not be overly worried, but the yellow party has enough of a chance of winning that they might just be successful.

JumpStart Adventures 3rd Grade: Mystery Mountain is a personal computer game in Knowledge Adventure's JumpStart series of educational software. As the title suggests, the game is intended to teach a third grade curriculum. This is the only version of this game created and, unusually for Knowledge Adventure, was still being sold over fifteen years after its initial release in 1996.
