This document is the specification of the Java API for JavaBean validation in Java EE and Java SE. The technical objective of this work is to provide an object level constraint declaration and validation facility for the Java application developer, as well as a constraint metadata repository and query API.

Bean Validation specification

Precise warning highlighting in ternary expressions. IntelliJ IDEA 2019.1 ensures more precise warning highlighting for ternary expressions. It will only highlight a condition in which a nullability violation is detected (whereas previously it highlighted the whole ternary expression, even when the nullability was only violated in a single branch).
