Definition. Generally (but not always) pronouns stand for (pro + noun) or refer to a noun, an individual or individuals or thing or things (the pronoun's antecedent) whose identity is made clear earlier in the text. For instance, we are bewildered by writers who claim something like. They say that eating beef is bad for you.

An important kind of clause acts as if it were an adjective - it adds extra information about a noun or noun phrase. These clauses are called relative or adjectival clauses. They can seem confusing because they can be inserted in between their main clause, e.g. "The girl who wore a red dress left early." This sentence contains one main clause "The girl left early" and one dependent or relative ...

Grammar is the system that structures a language, and every language has its own guidelines. But grammar isn't so much about rules as it is the conventions that determine how we speak and write, and it includes things like spelling, inflecting words for different purposes, and the way words are arranged to form sentences.
