Introduction. This lesson introduces students to the Global Challenge: non-communicable disease. They learn about the UN's sustainable development goals, the global challenge and what is meant by the term 'non-communicable disease' (NCD), increasing their knowledge and understanding of how and why they affect children all over the world.

NCD Challenge Introduction Lesson | micro:bit

In statistics, the multiple comparisons, multiplicity or multiple testing problem occurs when one considers a set of statistical inferences simultaneously or infers a subset of parameters selected based on the observed values. In certain fields it is known as the look-elsewhere effect.. The more inferences are made, the more likely erroneous inferences are to occur.

Multiple comparisons problem - Wikipedia

K12.ia.us is tracked by us since April, 2011. Over the time it has been ranked as high as 14 449 in the world, while most of its traffic comes from USA, where it reached as high as 2 351 position.
