Recently, Henry came home with a note from school asking for a picture of one living thing and another of a nonliving object. While we found one picture of each, we set out to find a bunch of pictures of living and nonliving things to make a collage of each and learn a little about classifying.

Finding & Sorting Pictures of Living and Nonliving Things

The repulsive energy goes up as $(d_i / R)^{12}$, where R is the distance between the atoms and d_i is the distance threshold below which the energy becomes repulsive. d_i depends on the types of atoms. The large exponent means that when $R < d_i$ then small decreases in R cause large increases in repulsion. Short range repulsion only matters when atoms are in very close proximity ($R < d_i$), but at ...

Jesus' interactions with women are an important element in the theological debate about Christianity and women. Women are prominent in the story of Christ Jesus. He was born of a woman, had numerous interactions with women, and was seen first by women after his resurrection. He commissioned the women to go and tell his disciples that he is risen, which is the essential message of Christianity.
