myProgramInC.exe is not mine but I update it frequently; when this happens, I use try-catch functionality to get the data that was being used and everything is OK. But, as I said, there are many instances of the same app (it exists in different versions) and since it's a legacy software, some of them are ANSI C code wich doesn't accept the use of try-catch and for these versions is necessary to ...

Language attrition is the process of losing a native, or first, language. This process is generally caused by both isolation from speakers of the first language ("L1") and the acquisition and use of a second language ("L2"), which interferes with the correct production and comprehension of the first. Such interference from a second language is likely experienced to some extent by all bilinguals ...

**ABSTRACT**Background: While normal tinnitus is a short-term sensation of limited duration, in 10–15% of the general population it develops into a chronic condition. For 3–6% it seriously interferes with many aspects of life. Objective: The aim of this trial was to assess effectiveness of a trauma-focused approach, eye movement desensitization and reprocessing (EMDR), in reducing tinnitus ...
