Top Networking Interview Questions. Here we go with the basic networking questions and answers. Q #1) What is a Network? Ans: A network is a set of devices connected to each other using a physical transmission medium. Example: A Computer Network is a group of computers connected with each other to communicate and share information and resources like hardware, data, and software across each other.

Top 60 Networking Interview Questions and Answers

Mentorship is a relationship in which a more experienced or more knowledgeable person helps to guide a less experienced or less knowledgeable person. The mentor may be older or younger than the person being mentored, but he or she must have a certain area of expertise. It is a learning and development partnership between someone with vast experience and someone who wants to learn.

Mentorship - Wikipedia

The Windows 7 network client requires packet signing by default (to prevent man-in-the-middle attacks), and Samba disables packet signing by default. It may be that your client and server are failing to negotiate with each other on this item. So you could resolve it in one of two ways.

Tracking USPS shipments sent to India is a hell of a task that needs a lot of patience. We have a user reporting that his USPS priority international parcel is still not received by him after 2 weeks from shipping date. If you look at the post, you will notice that the parcel was shipped from USA to India with in 2 days of USPS receiving the information and then the shipping product itself.

Cheating in online games is defined as the action of pretending to comply with the rules of the game, while secretly subverting them to gain an unfair advantage over an opponent. Depending on the game, different activities constitute cheating and it is either a matter of game policy or consensus opinion as to whether a particular activity is considered to be cheating.
