Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

The brain is an organ that serves as the center of the nervous system in all vertebrate and most invertebrate animals. The brain is located in the head, usually close to the sensory organs for senses such as vision. The brain is the most complex organ in a vertebrate's body. In a human, the cerebral cortex contains approximately 14–16 billion neurons, and the estimated number of neurons in ...

A block cipher is so-called because the scheme encrypts one block of data at a time using the same key on each block. In general, the same plaintext block will always encrypt to the same ciphertext when using the same key in a block cipher whereas the same plaintext will encrypt to different ciphertext in a stream cipher.

Mitochondria are often called the powerhouses of the cell. We explain how they got this title, and outline other important roles that they carry out.

Mitochondria: Form, function, and disease

Objective. The overall research objective was to theoretically and empirically develop the ideas around a system of safety management practices (ten practices were elaborated), to test their relationship with objective safety statistics (such as accident rates), and to explore how these practices work to achieve positive safety results (accident prevention) through worker engagement.

A system of safety management practices and worker ...

This was my first thought as well. Someone around Trump is doing a fantastic job of managing the messaging around the Mueller report...I'm guessing Barr is the mastermind because they're effectiveness has gone through the roof since he came on board.

You are correct – 1000 kcal per day diet is severe caloric restriction, much lower than I would recommend. But that is exactly why weight loss is virtually guaranteed at that level of caloric intake. risk of muscle loss goes up with such very low calorie diets, but is minimized with weight training and high protein intake.
