We live in an information society. This book describes the basic ideas of information theory, showing how we can transmit and store information as compactly as possible, how much information can be transmitted by a particular channel or network, and how security can be assured. It covers all the ...

### **Information Theory by Jan C.A. van der Lubbe - Goodreads**

Marinus van der Lubbe was born in Leiden in the province of South Holland. His parents were divorced and, after his mother died when he was twelve years old, he went to live with his half-sister's family. In his youth, Van der Lubbe worked as a bricklayer. He was nicknamed Dempsey after boxer Jack Dempsey, because of his great strength.

Information theory is characterized by a quantitative approach to the notion of information. By means of the introduction of measures for information answers will be sought to such questions as: How to transmit and store information as compactly as possible? What is the maximum quantity of information that can be transmitted through a channel?
