Alfred Lothar Wegener (1 November 1880 – 13 November 1930) was a German scientist and meteorologist. He is most notable for his theory of continental drift, which he proposed in 1912. This was the idea that the continents were slowly drifting around the Earth. He also had ideas about why the continents drift, which other scientists thought were impossible.

Mammut is a genus of the extinct family Mammutidae, related to the proboscidean family Elephantidae (mammoth and elephants), from which it originally diverged approximately 27 million years ago. The following cladogram shows the placement of the American mastodon among other proboscideans, based on hyoid characteristics:
