Odd Styrmo: I am always suspicious of companies that hide their 'secrets' with marketing BS. If there was anything there, they wouldn't be afraid to publish the basis for their claims and have a patent for it. There are more reputable companies out there that don't hide their 'secret' and tell you, just like the author here, that the benefits exist, but are limited.

The image above and others from the Mars Reconnaissance Orbiter show that frozen water is just below the surface at latitudes closer to the equator than thought possible before. The bright areas in the upper panels are sub-surface water ice freshly exposed by meteorite impacts. They fade over 15 weeks as the water ice sublimates (bottom panels).
