Our background. Prior to the founding of Therapy Partner Solutions, our founding partners, physical therapists themselves, owned and operated a successful regional outpatient orthopedic and sports medicine physical therapy portfolio of practices based on the simple idea of creating a small group of outpatient practices that simply did therapy the right way.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
