Place the LP on your second bath towel and spray with the clear distilled water, thoroughly wetting the surface as you did with the cleaner. Take a second dampened microfiber towel and give a light brush to spread the rinse water - without a surfactant to break the water tension you'll notice the rinse water tends to puddle up.

Vinyl Record Cleaning Instructions. 1. Create a solution in a spray bottle containing 1 part isopropyl alcohol to 3 parts distilled water. Add 1 drop of dish soap (nothing fancy, regular Dawn is fine. I just an unscented natural dish soap.) Mix it up. 2. Take your record and put a dent puller of the label on each side.

Spray liberally on the record avoiding the label. (I usually just let the solution drip from the bottle to avoid getting it on the label.) Use a clean paintbrush (I use a 2" wide natural fiber brush) to spread the solution on the vinyl in circles, like the hands of a clock move around the face of the clock.

### **DIY Record cleaning solutions- Vinyl Engine**

The best commercial record cleaning solutions have absolutely no alcohol in them and are followed by a high purity water rinse (usually a couple of rinses with high purity water as this is just as much of a "cleaning" step as the initial cleaning solution).

### **DIY record cleaning solution recipe needed | Audiogon ...**

Why do it when you can have top quality cleaning solutions for 25 cents per record? Buy a quality, purpose designed surfactant based cleaner such as MoFi Super Deep or AIVS that will clean a record for 15 or 20 cents and then buy the highest quality rinse/final wash available which is either reagent grade or ultrapure water which may cost another 5 cents a record if you're buying in bulk.
