that use aggressive accounting policies report higher income numbers in the short-run. In such cases, we say that the quality of earnings is low. Similarly, if higher expenses are recorded in the current period, in order to report higher income in the future, then the quality of earnings is also considered low. 10.

Questions Chapter 13 (Continued) 7. A discount on notes payable represents the difference between the present value and the face value of the note, the face value being greater in amount than the discounted amount. It should be treated as an offset (contra) to the face value of the note and amortized to interest expense over the life of the note.
