CHAPTER I INTRODUCTION. According to Bernheim, "History is the Science of the development of men in their activity as social beings." The old saying, "The roots of the present lie deep in the past," is indeed, true, and for that reason, we cannot obtain the full meaning of that which lies about us-our religion, our laws, and our institutions, unless we have a thorough understanding of ...

Many scholars have documented the way information and communication technologies (ICTs) have been entwined with major changes in society since the invention of electrical telegraphy in the 1830s. For some, the early ICTs, as well as those stemming from the invention of the microprocessor in the late 1960s, are best characterized as being revolutionary.
