February 8th, Rann of Kutch, India. Anne and I returned a few weeks ago from a phototour to India organized by Joe van Os Photo Safaris. The theme was "Faces of India", and much of our tour was occupied with people photography in the chaotic alleys of Old Delhi, the bustling riverbank ghats of Varanasi, and the utter bedlam of the Kumbh Mela festival at Allahbad.

A simulation is an approximate imitation of the operation of a process or system; the act of simulating first requires a model is developed. This model is a well-defined description of the simulated subject, and represents its key characteristics, such as its behaviour, functions and abstract or physical properties.

Responses are categorized as either tropic: a movement in response to a specific directional stimuli such as light and gravity, or nastic: a movement in response to non-directional or multiple stimuli such as touch or vibration. Nastic responses are usually temporary and do not alter growth. From scientific study, we have learned that plants respond to light, gravity, and water.
