Answers. This is because "meaning of x" is a term in life usually conveying something regarding the consequences of x, or the significance of x, or that which should be noted regarding x, etc. So when "life" is used as "x" in the term "meaning of x", the statement becomes recursive and therefore nonsensical.

what is the answer to life? | Yahoo Answers

The evolutionary history of life on Earth traces the processes by which both living organisms and fossil organisms evolved since life emerged on the planet, until the present. Earth formed about 4.5 billion years (Ga) ago and evidence suggests life emerged prior to 3.7 Ga.

Modern Biology chapter 14 History of Life - continued ...

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.
