Education - Revolutionary patterns of education: At the turn of the 20th century the Russian Empire was in some respects educationally backward. According to the census of 1897, only 24 percent of the population above the age of nine were literate. By 1914 the rate had risen to roughly 40 percent. The large quota of illiteracy reflected the fact that by this time only about half the children ...

Europe - Economy: Europe was the first of the major world regions to develop a modern economy based on commercial agriculture, industrial development, and the provision of specialized services. Its successful modernization can be traced to the continent's rich endowment of economic resources, its history of innovations, the evolution of a skilled and educated labour force, and the ...
