anyways, my question is this, you see I've been revising and I came across a very useful sheet of what you might get asked in an ISA. I came across the section of range and interval: Questions on Range and Interval Q. What interval did you use when changing (... your independent variables...)? Expected answer:

### **ISA Section A & B (Question on range and interval) - The ...**

In this question the mark scheme has about 10 words on it and when they say "(write your answers in a good order and in good english)" They mean they want about 5/10 of those words in your answer for 3/3 marks on that question, or something like that. Some people find them hard others find them easy. But people generally do quite well.
