Arthur Holmes FRS FRSE (14 January 1890 – 20 September 1965) was a British geologist who made two major contributions to the understanding of geology. He pioneered the use of radiometric dating of minerals and was the first earth scientist to grasp the mechanical and thermal implications of mantle convection, which led eventually to the acceptance of plate tectonics.

Survival analysis is a branch of statistics for analyzing the expected duration of time until one or more events happen, such as death in biological organisms and failure in mechanical systems. This topic is called reliability theory or reliability analysis in engineering, duration analysis or duration modelling in economics, and event history analysis in sociology.

Survival analysis - Wikipedia

The use of metric prefixes dates back to the inception of the French metric system, in 1793. It was originally decided that the submultiples of all basic units would be prefixed with a Latin root, corresponding to the decimal divisor (deci for 10, centi for 100, milli for 1000), whereas the decimal multiples would be prefixed with a Greek root, corresponding to the decimal multiplier (deca for ...
