Highlights We review the literature and identify critical dashboard design features. We divide dashboard features into functional and visual features. Essential features include information presentation flexibility and drill down. Dashboards can remedy the information overload problem if designed well. We conclude the paper with implications for practice and future research paths.

According to a recent article by CMA partner Credit Today, a survey of the participants in Industry Credit Groups throughout the United States (including some CMA members) explained that their overall investment of under \$2,000 per year in an industry credit group returns over \$250,000 in cost savings (yes; you read that correctly). That's an investment that is hard to pass up.
