Here is a Word document that makes it easy to add entries to the AutoCorrect list. Just select the entries that you want to add from a table and click the button. 17 entries are included; you can add others. The table makes a convenient storage area for the entries you've added so that you can find them when you need them.

Chemistry Formatter - Christopher King

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

Computational chemistry is a branch of chemistry that uses computer simulation to assist in solving chemical problems. It uses methods of theoretical chemistry, incorporated into efficient computer programs, to calculate the structures and properties of molecules and solids. It is necessary because, apart from relatively recent results concerning the hydrogen molecular ion (dihydrogen
