Exam format: The Examination requires you to consider the details of a construction project presented in much the same way that a brief and proposed design solution would be passed to the design office by a Chartered Structural Engineer. The Examination is seven hours long. You must answer one question from a choice of four.

Each model answer is contained within a standalone publication that includes: a summary of the question; the development of the required solutions; the design calculations for the principal structural elements, along with a commentary, and drawings, such as general arrangement plans,...

**IStructE exam help available | newsteelconstruction.com**

The IStructE exam is unlike any other, it is not about crunching numbers but about your ability to produce a logical scheme design to a difficult structure. There is not sufficient time allowed in the exam to provide full code calculations and therefore it is the appropriate use of rules of thumb that are encouraged.
