A tractor beam is a device with the ability to attract one object to another from a distance. The concept originates in fiction: the term was coined by E. E. Smith (an update of his earlier "attractor beam") in his novel Spacehounds of IPC (1931). Since the 1990s, technology and research has laboured to make it a reality, and have had some success on a microscopic level.

In general I use system, open, IPC::Open2, or IPC::Open3 depending on what I want to do. The qx// operator, while simple, is too constraining in its functionality to be very useful outside of quick hacks. I find open to much handier.. system: run a command and wait for it to return. Use system when you want to run a command, don't care about its output, and don't want the Perl script to do ...

1. Introduction. Sludge is the product of sewage treatment, and the total solid content in it is generally below 8% before treatment (Anjum et al., 2016; Nellenschulte and Kayser, 1997). Sludge disposal is an important part of sewage treatment systems, and its cost accounts for more than half of the total cost (Mowla et al., 2013; Örmeci, 2016). ...

I am working with a shared memory application, and to delete the segments I use the following command: ipcrm -M 0x0000162e (this is the key) But I do not know if I'm doing the right things, because when I run ipcs I see the same segment but with the key 0x0000000. So is the memory segment really deleted?

The first protein of the toll receptor family was discovered in the context of insect development but was later shown to play an additional role in protecting insects against fungal infections (36, 37, 38). Subsequently, more than ten Toll-like receptor protein homologues were discovered in the mouse and human genomes (12, 13, 39). Although the functions of the TLR proteins are incompletely ...
