Time is the indefinite continued progress of existence and events that occur in apparently irreversible succession from the past, through the present, to the future. Time is a component quantity of various measurements used to sequence events, to compare the duration of events or the intervals between them, and to quantify rates of change of quantities in material reality or in the conscious ...

The philosophy of education examines the goals, forms, methods, and meaning of education. The term is used to describe both fundamental philosophical analysis of these themes and the description or analysis of particular pedagogical approaches. Considerations of how the profession relates to broader philosophical or sociocultural contexts may be included.
