Ferns are seedless vascular plants. Ferns were the first type of vascular plant and are generally considered to be simpler than vascular plants that make seeds. Ferns can range from very short ...

### **A Fern Life Cycle: Plant Reproduction Without Flowers or Seeds**

Captive breeding is the process of maintaining plants or animals in controlled environments, such as wildlife reserves, zoos, botanic gardens, and other conservation facilities. It is sometimes employed to help species that are being threatened by human activities such as habitat loss, fragmentation, over hunting or fishing, pollution, predation, disease, and parasitism.

### **Captive breeding - Wikipedia**

The timeline of human evolution outlines the major events in the development of the human species, Homo sapiens, and the evolution of the human's ancestors. It includes brief explanations of some of the species, genera, and the higher ranks of taxa that are seen today as possible ancestors of modern humans.. This timeline is based on studies from anthropology, paleontology, developmental ...
