The Native American flute is a flute that is held in front of the player, has open finger holes, and has two chambers: one for collecting the breath of the player and a second chamber which creates sound. The player breathes into one end of the flute without the need for an embouchure. A block on the outside of the instrument directs the player's breath from the first chamber — called the slow ...

The largest black holes grow faster than their galaxies, according to new research. Two studies from separate groups of researchers find that so-called supermassive black holes are bigger than ...

### **Are Supermassive Black Holes Going to Eat the Universe?**

A black hole is a region of spacetime exhibiting gravitational acceleration so strong that nothing—no particles or even electromagnetic radiation such as light—can escape from it. The theory of general relativity predicts that a sufficiently compact mass can deform spacetime to form a black hole. The boundary of the region from which no escape is possible is called the event horizon.
