Social Services and Well-being (Wales) Act 2014

Economics (/ ɛ k ə ' n ɒ m i k s, i: k ə -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Economics - Wikipedia

The cooling of the climate, confirmed by a detailed tree-ring study near Hokitika, shows a significant, sudden and long-lasting cooler period from 1500. This coincided with a series of massive earthquakes in the South Island Alpine fault, a major earthquake in 1460 in the Wellington area, tsunamis that destroyed many coastal settlements, and the extinction of the moa and other food species.

Since the start of the global HIV epidemic, women have been disproportionately affected by HIV in many regions. Today, women constitute more than half of all people living with HIV.¹AIDS-related illnesses remain the leading cause of death for women of reproductive age (15-44).² Young women (15-24 years), and adolescent girls (10-19 years) in particular, account for a disproportionate number of ...

More recently, the interest in using call networks as a new Big Data source for credit scoring has gained traction, e.g., with Wei et al. formulating the potential value of credit scores obtained with networks – for example, based on social media or calls – and how strategic tie-formation might affect these scores. Although especially interesting in relation to the Chinese government's ...
