Tubular proteinuria. Tubular proteinuria is a result of tubulointerstitial disease affecting the proximal renal tubules and interstitium. This results in decreased proximal reabsorption of proteins—in particular, low molecular weight proteins (generally below 25,000 Daltons) such as beta-2 microglobulin.

Constipation is the most common digestive complaint in the United States. It is a symptom rather than a disease and, despite its frequency, often remains unrecognized until the patient develops sequelae, such as anorectal disorders or diverticular disease.

Constipation: Practice Essentials ... - Diseases & Conditions

If you get students used to giving each other feedback after activities and introduce the appropriate task language, not only will the students get a chance to discuss their answers but they will also have an opportunity to use language.

Classroom management: Alternatives to whole class feedback

A worldview is a set of beliefs used to understand the world. Everyone has a worldview. Everyone has a set of principles by which to judge right and wrong, and which guides them in everyday living. You stop at a red light, go at a green. You leave a tip with a waiter or a waitress. You try and color ...
