What happens when the pH decreases during cellular respiration? What effect does this have on the hemoglobin's affinity? What is the Bohr effect? You can find the answers on this video as Leslie explains more about what happens during cellular respiration.

061 The Bohr Effect - Interactive Biology, with Leslie Samuel

Skeletal muscle is attached to bones and its contraction makes possible locomotion, facial expressions, posture, and other voluntary movements of the body. Forty percent of your body mass

is made up of skeletal muscle. Skeletal muscles generate heat as a byproduct of their contraction and thus participate in thermal homeostasis.

4.4 Muscle Tissue and Motion - Anatomy and Physiology

Gain a high-yield review of the most critical concepts in medical physiology. The course covers all the essentials: neurophysiology , cardiac physiology , respiratory physiology , endocrine physiology . Learn online with high-yield video lectures & earn perfect scores. Try now for free!

Welcome to BiologyInMotion. Original and entertaining biology animations and interactive activities, available for free on the Web.

Biology in Motion

Throughout this chapter, we will express embryonic and fetal ages in terms of weeks from fertilization, commonly called conception. The period of time required for full development of a fetus in utero is referred to as gestation (gestare = “to carry” or “to bear”). It can be subdivided into distinct gestational periods.

28.2 Embryonic Development - Anatomy and Physiology

Biology Interactive Review Activities. These are not graded assignments. They are intended only as practice of concepts and vocabulary that are essential to your success in this course.
