Top-down and bottom-up are both strategies of information processing and knowledge ordering, used in a variety of fields including software, humanistic and scientific theories (see systemics), and management and organization. In practice, they can be seen as a style of thinking, teaching, or leadership. A top-down approach (also known as stepwise design and in some cases used as a synonym of ...

This is a list of atheists in science and technology. A mere statement by a person that he or she does not believe in God does not meet the criteria for inclusion on this list. Persons in this list are people (living or not) who both have publicly identified themselves as atheists, or have been historically known to be atheists, and whose atheism is relevant to their notable activities or public ...
