A Distance Learning Diploma Course of 5 Modules. Anatomy and Physiology Course. All therapists should aim to complete this course. Anatomy is the study of the form, structure and development of the body, its arrangements and organs.

Anatomy and Physiology Course - School of Natural Health ...

Unique for its role in human reproduction, a gamete is a specialized sex cell carrying 23 chromosomes—one half the number in body cells. At fertilization, the chromosomes in one male gamete, called a sperm (or spermatozoon), combine with the chromosomes in one female gamete, called an oocyte. The function of the male reproductive system is to produce sperm and transfer them to the female ...
