A unit test is not suited to cover the database connectivity. Instead, this is covered by integration tests. Assuming your class handling the JDBC has a method that returns a Connection, you can write a test for the connection not being null and isValid to submit queries and execute them. This is an example using Spring and JUnit 1 for this integration test:

@Gravity, while you're absolutely correct in that folks coming from C++ will instinctively have a different intuition set regarding the term "reference", I personally believe the body is more buried in the "by". "Pass by" is confusing in that it is absolutely distinct from "Passing a" in Java. In C++, however it colloquially is not.
