GATE 2018 Question Papers and Answer Keys | GATE2018

The question-answer relationship (QAR) strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing

What's The Culture Code about? It's about the science of successful groups: how to build cohesive, high-performing culture. Why did you write it? Basically, I got obsessed with a mystery. While writing The Talent Code, which is about individual performers, I kept bumping into these amazing groups: championship sports teams, successful businesses, super-achieving schools.

Question and Answer - Daniel Coyle

The difference between Varchar and Varchar2 is both are variable length but only 2000 bytes of character of data can be store in varchar where as 4000 bytes of character of data can be store in varchar2.
