The use of postoperative prophylactic antibiotics in stented distal hypospadias repair: a systematic review and meta-analysis

Journal of Pediatric Urology Home Page

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits. Modern scholarship regards race as a social construct, an identity which is assigned ...

The semantics of the various subtags is explained in Section 3.4 Language Identifier Field Definitions; there are also direct links from `unicode_language_subtag`, etc. While theoretically the `unicode_language_subtag` may have more than 3 letters through the IANA registration process, in practice that has not occurred. The `unicode_language_subtag` "und" may be omitted when there is a `unicode_script` ...

Context Suicide is a leading cause of death in the United States, but identifying persons at risk is difficult. Thus, the US surgeon general has made suicide prevention a national priority. An expanding body of research suggests that childhood trauma and adverse experiences can lead to a variety of negative health outcomes, including attempted suicide among adolescents and adults.

1. Introduction. Cognitive bias is a broad term that includes a variety of processes that may lead to inaccurate judgments or interpretations; cognitive biases can affect memory, reasoning, and decision-making []. Although the term may be interpreted with a negative connotation, it is important to understand that these processes are a natural consequence of the need to attune to patterns and ...

Congestive heart failure (CHF) complicates the course of a significant proportion of patients in the intensive care unit (ICU). In the ICU, CHF may present as a manifestation of newly diagnosed cardiac disease or as an exacerbation of underlying heart disease, as a result of fluid overload or stress accompanying acute illness, surgery, or trauma.

American Journal of Respiratory and Critical Care Medicine

DESPITE MANY advances in congestive heart failure (CHF) therapy, worsening of clinical status, often to the point of requiring hospitalization, remains a common occurrence. 1 It is estimated that there are 700 000 hospitalizations for CHF per year in the United States. In the Studies of Left Ventricular Dysfunction registry of 6273 consecutive patients with CHF, 2 19% were hospitalized 1 or ...
