12. Platyhelminthes means “flatworm,” which describes the shape of these worms. This is the first phylum we are studying that is triploblastic. This group is acoelomate, a term you learned in the last chapter. It is the only acoelomate group we will study, so be sure to know this. As you read this paragraph, complete the line on the chart for Platyhelminthes at the end of this
