What Is the Difference Between Accuracy and Precision?

THE MOST IMPORTANT INDEPENDENT VARIABLES IN FERMENTATION. There are two key independent variables worth considering: (a) Sugar concentration. After crushing the grapes the next step in the making of wine is the fermentation of the grape juice and pulp with various yeasts and bacteria.

Senior Chemistry - Extended Experimental Investigations

I've been thinking a lot about education recently because I've been thinking a lot about the future of our children. Are we really going to live in a world where the rich continue to hoard their multi-generational fortunes while the rest just struggle to get by? Will the playing field continue to be so uneven that the middle class and poor must work twice as hard to get half as much?
