I've read all the post about "Hino Brake" problems, but I haven't seen our problem mentioned. ... They are in adjustment, and we don't know what else to do. Any advise would be welcomed. Thanks. greg334 ... your real problem is likely worn cam bushings. If you are going to keep the truck, replace the cams, the bushings and the slacks. While you ...

Hino Brake Problems | Expedite Trucking Forums

"Fifty-eight percent of trucks put out of service for brake adjustment in last year's Operation Air Brake had automatic slack adjusters," Malion points out. "They're not infallible." That may be news to some truckers who still refer to these devices as "self-maintaining" slack adjusters.

BRAKE ADJUSTMENT: SHOCKING DRIVER STUDY | Today's ...

Heavy Duty: Keeping Up With Modern ABS ... A recent DOT study indicated brake problems were present at the time of a crash in nearly a third of all reported accidents. ... semi-trailers and single-unit trucks equipped with air brakes and hydraulically braked single-unit trucks over 10,000 pounds GVW.

Heavy Duty: Keeping Up With Modern ABS - Vehicle Service Pros

Air disc brakes are helpful in reducing the fleet and driver impact of CSA out-of-service violations. Since ADBs do not need to be adjusted, this eliminates the opportunity for a "brakes-out-of-adjustment" violation. This can be important for driver retention as well when the driver does not have to worry about this impacting their score.

truck brakes | maintenance issues for drum compared to ...

The shop may be right if the truck has a Solo clutch and it is at the end of its life. There are no regular adjustments for Solo clutches. If the clutch is worn out the free play is probably gone so the release bearing is too far away from the brake to make contact with it when the pedal is pushed down all the way.
