Probability of Independent and Dependent Events Worksheet ...

Objective: I know how to find the probability events that are dependent. What are dependent events? Events are dependent if the outcome of one event affects the outcome of another. For example, if you draw two colored balls from a bag and the first ball is not replaced before you draw the second ball then the outcome of the second draw will be affected by the outcome of the first draw.

Dependent Events Probability Worksheets (Solutions)

Find the probability of selecting a Jack from the first card and queen from the second card with replacement. Answer: * = Find the probability of selecting 6 or 7 in the first draw and 8 or 9 in the second draw without replacement. Answer: * = Independent and Dependent Answer key

Independent and Dependent - Math Worksheets 4 Kids

Probability of Independent and Dependent Events Decide if each set of events is independent or dependent. Explain your answer. 1. A student spins a spinner and rolls a number cube. 2. A student picks a raffle ticket from a box and then picks a second raffle ticket without replacing the first raffle ticket.
