A mathematical exercise is a routine application of algebra or other mathematics to a stated challenge. Mathematics teachers assign mathematical exercises to develop the skills of their students. Early exercises deal with addition, subtraction, multiplication, and division of integers. Extensive courses of exercises in school extend such arithmetic to rational numbers.

Hi Monika, I'm an OT and have 7 years experience working with school-aged children on, among other things, handwriting. The only "big deal" about writing in script (printing) from the bottom-up is efficiency: when he's older and has to be taking notes in class, it \*may\* slow him down, and he \*may\* start to struggle in keeping up when writing papers or completing tests.
