### **Postmedia Solutions**

Many gifted children and teens have a natural aptitude in math, but many parents and teachers of high ability math learners find that it can be a challenge to keep these children and teens engaged and excited about math. Gifted math students who are often light years ahead of the standard curriculum can find themselves bored and increasingly disinterested in math as the years tick by.

Weaverbird is a topological modeler that contains many of the known subdivision and transformation operators, readily usable by designers. Instead of doing the work repeatedly, or sometimes using complicated scripts, this plug-in reconstructs the shape, subdivides any mesh, even made by polylines, and helps preparing for fabrication.
