On the subject of associating your iPhone app with file types. In this informative question I learned that apps could be associated with custom URL protocols.. That was almost one year ago and since then Apple introduced 'Document Support' which goes a step further and allows apps to associate with file types.

How do I associate file types with an iPhone application?

'Blog posts' might be the answer. But I have read blogs for many years and most blog posts are the triumph of the hare over the tortoise. They are meant to be read by a few people on a weekday in 2004 and never again, and are quickly abandoned—and perhaps as Assange says, not a moment too soon. (But isn't that sad?
